What Our Members Are Saying

“I think it’s important to be a part of NPA because it enables me to connect with old pharmacy friends and meet new ones; learn more about my area of practice and keep track of areas I’m not currently involved in; have a say in legislative and regulatory matters, not much about pharmacy happens in the Unicameral, HHS, or the Board of Pharmacy without the involvement of Joni and her team, and they always solicit member input. Membership isn’t cheap, but I’ve always thought it has a very high return on investment.”

— Ken Kester, PharmD

“I am an NPA member because it is the best way to be connected to the pharmacy community. There are valuable resources that the NPA provides that are beneficial to me as well as to the profession of pharmacy. Additionally, the NPA provides me the opportunity to engage and collaborate with my peers in various pharmacy settings. Above all, being part of the NPA, I feel that my voice is heard, and I feel that the NPA is advocating on my behalf.”
