

# COVID-19 TESTING IN PHARMACIES

## CPE WEBINAR

Licensed pharmacists can order and administer COVID-19 tests that the U.S. Food and Drug Administration has authorized. This CPE program has been designed for pharmacists, pharmacy technicians, and student pharmacists who take part in COVID-19 testing in a pharmacy setting. **This program was presented by the University of Nebraska Medical Center College of Pharmacy and provided by the Nebraska Pharmacists Association (NPA).**

**90 minutes | 1.5 CEUs | Knowledge-based CPE Activity**

ACPE UAN 0128-9999-20-013-H04-P for pharmacists

ACPE UAN 0128-9999-20-013-H04-T for pharmacy technicians

### LEARNING OBJECTIVES

At the end of this program, the learner should be able to:

- Describe what is currently known about SARS-CoV-2.
- List the tests currently available for COVID-19 testing in a pharmacy setting.
- Identify opportunities and barriers to community pharmacists offering COVID-19 testing.
- Develop a plan for COVID-19 testing including appropriate test selection, specimen collection, personal protective equipment, billing, and reporting.

*The NPA is accredited by the Accreditation Council for Pharmacy Education (ACPE) as a provider of continuing pharmacy education. Earn CPE credit by watching the entire webinar and completing a post-test and program evaluation. Once successfully completed, CPE credits will be submitted to NABP. Access your ACPE Statement of Credit at [www.MyCPEMonitor.net](http://www.MyCPEMonitor.net). The NPA provides two opportunities to complete and pass the exam. CPE credit will not be awarded after two failed attempts. For questions, contact the NPA at 402-420-1500 or [diane@npharm.org](mailto:diane@npharm.org).*

This recorded webinar was previously offered as a live webinar on May 21, 2020. Participants should not seek duplicate credit.
