

DIR fees got you down?

MTM THE FUTURE TODAY HAS YOU COVERED!

Join us for an exciting day of MTM training unlike any program in the country!

You will learn how to use MTM services as a tool to impact patient care, clinical workflow, and pharmacy revenue (including DIR fees!). MTM The Future Today is the complete how-to guide for implementing MTM services in the community pharmacy. Pharmacy technicians receive training over their responsibilities for MTM services alongside their pharmacists.

This program takes you through completing CMR and TMR services from start to finish. Your team will leave the training with a unique set of forms designed and proven to streamline MTM and decrease time spent preparing for, documenting, and billing for services.

Are you ready to boost your MTM completion rates, decrease your DIR fees, and learn how to workflow clinical services as a team?

When: June 12, 2022
Where: Presented ONLINE via Zoom
Cost: \$199 per pharmacy team (includes pharmacist and technician)
